You all know that our State has experienced torrential rains in many districts in general and Chennai in particular. After long years we have had surplus rainfalls that too 'Adai Mazhai' this year and you are surprised to see everywhere Greens! At last Varna Bhagavan has blessed us with enough Varsha.

In our IMA Madurai Branch Secretary has called for the IMA election 2022 as per the guidelines of our byelaw. Since there is no 'President Elect' for the year 2021, TNSB has directed the IMA Madurai Branch Secretary to be the Election Chairman/Returning officer for the IMA Madurai Branch 2022.

TNSB has also directed us to conduct the 'President Election 2022' election separately observing all the norms.

We had an enquiry Committee Meeting with National IMA in Zoom Platform on 18<sup>th</sup> November and we thanked them whole heartedly for their guidance to negotiate with the TN State office and settle the 'Election Dispute' amicably.

Accordingly on 19<sup>th</sup> November 2021, Myself and Secretary of Madurai Branch along with the TNSB State President and Secretary arrived at a mutual consensus, signed the 'MOU' regarding the Election Dispute.

On 20<sup>th</sup> November on behalf of IMA Madurai Branch President Presented the Election Dispute 'MOU' to the General Body which was accepted in the floor.

## FROM THE EDITOR'S DESK

**Dear Esteemed Members,  
Greetings!**

I am immensely pleased to write to you through this column in our Madurai IMA Newsletter. I am very thankful to our President and other Office Bearers, Governing Body members who have given me wonderful support, guidance, and cooperation in carrying out the IMA activities very much to the satisfaction of all members of our IMA.

As you all know this Corona Pandemic paralysed our activities to a certain extent but still we are lucky enough to comeback to almost normalcy in the last few weeks.

One of the happiest events in our IMA was that we had the opportunity of "Caring and Honouring Covid Warriors" twice, one was on 3<sup>rd</sup> January 2021 and another was on 2<sup>nd</sup> November 2021.

One of the saddest events in our IMA was that on 11<sup>th</sup> November 2021, our respectful collector Dr Anish Sekar distributing the solacium from the Honorable Tamilnadu Chief Minister's relief fund to the legal heirs of the martyrs who have sacrificed their lives in the fight against Covid-19. However IMA considers this event as a token of togetherness with their families.

Let us not forget to follow the Covid behaviour and try to bring our nation into the "Corona Free Zone".

### Treatment

Once the diagnosis of GHD is established, an ideal replacement regimen should be instituted and titrated to a clinical response and serum IGF-1 level.

1. For patients aged 30–60 years, a starting dose of 300 µg/day is reasonable and is usually not associated with any side effects.
2. Daily dosing should be increased by 100–200 µg every 1–2 months titrated to the IGF-1. Clinical benefits may not become apparent for 6 or more months of treatment.
3. Older (>60 years) patients should be started on lower doses (100–200 µg/day) and increased more slowly.
4. Most adverse effects include fluid retention (5–18%), hypertension, paresthesia, joint stiffness, peripheral edema, arthralgia, and myalgias, carpal tunnel syndrome (2%). Most of these adverse reactions improve with dose reduction. Insulin resistance and type 2 diabetes can occur or worsen in patients with pre-existing diabetes. Although there might have been some concern with respect to the risk of cancer with the use of GH therapy, an increase in the recurrence rates of either intracranial or extracranial tumours has not been demonstrated in AGHD

### Conclusion

GHD (isolated or as part of multiple hormone deficiencies) is being increasingly recognized as a cause of premature mortality. Over the last decade or two, much of our understanding on various clinical presentations of GHD has improved. The documented benefits of replacement therapy have helped improve the quality of life of many patients lives with AGHD.
